As sanctioned in Government Order No. 3913-62—A. and I. 73-14-7, dated 12th April 1915, it is hereby notified that Agricultural Implements will be issued to raiyats and land-holders of the State on the Hire-purchase system with effect from 1st January 1916. The rules regulating these sales are extracted from the Government Order above referred to and republished for information.

RULES FOR THE SALE OF AGRICULTURAL IMPLEMENTS ON THE HIRE-PURCHASE SYSTEM.

In order to popularise the use of improved agricultural implements in the State they will be sold to raiyats on credit from the Implement Depot and their value recovered in easy instalments as hereinafter prescribed.

2. The value of implements sold to any one raiyat or landholder under these rules and outstanding against him at any one time shall not exceed Rs. 2,000.

3. * * *

4. The rate of interest charged shall be five per cent per annum.

5. Applications for the supply of agricultural implements should be made in writing to the Director of Agriculture in Form No. 1 annexed to these rules.

6. No application for the supply of implements shall be granted until after the applicant has executed an agreement in Form No. 2, annexed hereto.

7. No application shall be considered unless it is accompanied by a deposit of ¼th of the value of the implements.

8. The period of payment of hire instalments will be three years in the case of implements costing Rs. 100 and less and five years in all other cases.

9. If from causes beyond the control of the hirer the payment of any instalment becomes unduly burdensome to him, the payment of this and all subsequent instalments may, notwithstanding anything contained in these rules, be suspended by the Director for a period of one instalment. Simple interest at five per cent per annum shall be charged on all suspended instalments for the period of such suspension.

10. All sums falling due under these rules shall be recoverable as arrears of land revenue, and a stipulation to this effect shall be inserted in every agreement executed by a hirer.

11. All implements supplied under these rules shall remain the property of the Mysore Government, till the hirer pays up all the instalments due under the agreement entered into by him. They should further be maintained in good working order to the satisfaction of the Director of Agriculture during such period.

12. If, at any time, the Director is satisfied that all or any of the conditions of the agreement have been violated by the hirer or that he is not maintaining the implements in good working order he may, after recording in writing the grounds of his decision, pass an order directing the recovery forthwith of all future instalments with costs, as an arrear of land revenue. On receipt of a certified copy of such an order, the Deputy Commissioner to whom it is communicated shall forthwith proceed to recover from such person or persons any sum that may remain due together with any interest payable thereon and costs, as an arrear of land revenue, provided that with the concurrence of the Director of Agriculture, such officer may, at his discretion, so recover any sum less than the whole amount of the balance due without prejudice to his right to recover the remainder of such balance at any subsequent time.

The rules regulating these sales are extracted from the Government Order above referred to and republished for information.

RULES FOR THE SALE OF AGRICULTURAL IMPLEMENTS ON THE HIRE-PURCHASE SYSTEM.

In order to popularise the use of improved agricultural implements in the State they will be sold to raiyats on credit from the Implement Depot and their value recovered in easy instalments as hereinafter prescribed.

Simple interest at five per cent per annum shall be charged on all suspended instalments for the period of such suspension.

10. All sums falling due under these rules shall be recoverable as arrears of land revenue, and a stipulation to this effect shall be inserted in every agreement executed by a hirer.

MEMORANDUM.

Dated 1st January 1916.

Australian fruit trees do much better in India than those imported from European countries, on account of similarity of climate and coincidence of season; but they do not keep long in pots and should be planted out in their permanent places on arrival. This precludes keeping a stock of these on hand in the Lal-Bagh until our own stock is ready for sale.

It is therefore intended to import a large number direct from Australia, same as in previous years, and distribute them to intending growers immediately on arrival about the beginning of July next. Before sending in the indent it is necessary that some idea should be had as to the approximate demand. Will therefore gentlemen as are desirous of availing themselves of the opportunity, oblige by informing the undersigned before the 1st April 1916, the kind, variety and number of fruit plants they want stating their address in full and the Railway Station to which the parcel should be booked.

A list of fruit trees intended to be imported is herein attached with approximate prices as delivered at the Lal-Bagh, Bangalore. All charges for packing and forwarding to destination would be extra.

L. BISHTOPANTH BADAMI,
Assistant Superintendent,
in charge, Office of the Supdt., Government Gardens.

MEMORANDUM.

Dated 1st January 1916.

Australian fruit trees do much better in India than those imported from European countries on account of similarity of claimate and coincidence of season; but they do not keep long in pots and should be planted out in their permanent places on arrival. This precludes keeping a stock of these on hand in the Lal-Bagh until our own stock is ready for sale.

It is therefore intended to import a large number direct from Australia, same as in previous years, and distribute them to intending growers immediately on arrival about the beginning of July next. Before sending in the indent it is necessary that some idea should be had as to the approximate demand. Will therefore gentlemen as are desirous of availing themselves of the opportunity, oblige by informing the undersigned before the 1st April 1916, the kind, variety and number of fruit plants they want stating their address in full and the Railway Station to which the parcel should be booked.

A list of fruit trees intended to be imported is herein attached with approximate prices as delivered at the Lal-Bagh, Bangalore. All charges for packing and forwarding to destination would be extra.

L. BISHTOPANTH BADAMI,
Assistant Superintendent,
in charge, Office of the Supdt., Government Gardens.

MEMORANDUM.

Dated 1st January 1916.

Australian fruit trees do much better in India than those imported from European countries on account of similarity of claimate and coincidence of season; but they do not keep long in pots and should be planted out in their permanent places on arrival. This precludes keeping a stock of these on hand in the Lal-Bagh until our own stock is ready for sale.

It is therefore intended to import a large number direct from Australia, same as in previous years, and distribute them to intending growers immediately on arrival about the beginning of July next. Before sending in the indent it is necessary that some idea should be had as to the approximate demand. Will therefore gentlemen as are desirous of availing themselves of the opportunity, oblige by informing the undersigned before the 1st April 1916, the kind, variety and number of fruit plants they want stating their address in full and the Railway Station to which the parcel should be booked.

A list of fruit trees intended to be imported is herein attached with approximate prices as delivered at the Lal-Bagh, Bangalore. All charges for packing and forwarding to destination would be extra.

L. BISHTOPANTH BADAMI,
Assistant Superintendent,
in charge, Office of the Supdt., Government Gardens.

SHIMOGA DISTRICT.

Notification.

1. It is hereby notified that the right of levying tolls on carts entering the limits of the Town Municipality of Shimaga during a period of one year, from 1st July 1916 to 30th June 1917, will be put to public auction at 12 noon on Monday, the 15th May 1916, subject to conditions hereinafter described.

2. The sale will be conducted in the office of the President of the Town Municipality, by the President or, in his absence from headquarters, by the Vice-President of the Municipality.

3. The right shall be knocked down to the highest approved bidder and shall, in case the sale is conducted by the Vice-President, be subject to formal confirmation by the President, who reserves to himself the power of accepting or rejecting any bid at his discretion without assigning any reasons for the same. The President further reserves to himself the power to dispose of the right by tenders or otherwise if the bids obtained at the auction are not considered satisfactory.

4. Persons intending to bid at the auction must attend in person or by a duly accredited agent. Every such person shall deposit beforehand a sum of Rs. 100 as earnest money. The deposits made by unsuccessful bidders will be returned at the close of the sale.

5. The successful bidder, hereinafter termed contractor, shall, on the sale being knocked down to him, at once deposit a sum sufficient to make up with his previous deposit one-twelfth of the amount of his bid, and a further sum equal to two-twelfths of the bid amount on or before the 5th June 1916, and he shall also execute, before the said date, an agreement on stamped paper binding himself and heirs to observe the conditions hereinafter set forth. If default is made either in making the deposits or in executing the agreement as above, the amounts, if any, already deposited, will be forfeited and the right to collect the toll shall be forthwith resold or otherwise disposed of by the President.

Conditions.

(1) The amount for which the right has been finally purchased shall be payable in equal monthly instalments commencing from July 1916. Each instalment shall be regarded as the rent for the month in respect of which it is payable and shall be paid into the treasury on or before the 20th of the month. In case of default, the President shall be at liberty to suspend further collections of toll by the contractor, direct the forfeiture of the deposit made by him and dispose of the right to collect toll during the remaining period of the year by resale, tender or otherwise as he may deem fit. Such resale or other disposal shall be at the risk of the defaulting contractor, who shall not be entitled to any gain accruing thereby; but in case of loss he shall be liable to make good the deficiency between the amount payable for the period under the terms of his contract and the amount fetched by the resale or other disposal. In the latter case, *i.e.*, in case of loss, the forfeited deposit of the contractor shall be taken towards the recoupment of such loss. Should, however, the forfeited deposit be greater than the loss by resale or other disposal, the whole of such deposit shall be credited to the Municipality.

(2) The deposit of three-twelfths of the bid amount made by the contractor shall be taken as a guarantee for the due fulfilment of the contract; and, if not forfeited, shall be returned after a month after the expiry of the contract.

(3) No remission or abatement of rent or compensation on any account shall be claimable by the contractor.

(4) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default.

(5) Tolls shall be levied at the rates detailed below:—

(6) A board exhibiting the rates of toll as above, written or painted legibly in English and Kannada characters, shall be put up at every toll-gate.

(7) A second toll shall not be levied on one and the same cart in the course of the same day, which shall count from midnight to midnight.

(8) No toll shall be levied on carts engaged in the passage of troops or military stores or equipages or of Police officers on duty or any person or property in their custody or of any property *bona fide* belonging to Government as established by the production of a certificate from the Head of the Department or office to which it belongs; also on carrying contractors' carts conveying timber of the Forest Department.

(9) No toll shall be levied on carts on which mohatarfa tax has been levied by the Municipality. Such carts will be numbered by the Vice-President of the Municipality, who will issue a pass therefor.

(10) The levy of tolls shall, generally, be subject to the conditions laid down in the late Chief Commissioner's Notification No. 274, dated 4th November 1876.

(11) An account of the daily collections at the several gates shall be maintained by the contractor; and at the end of every month a copy thereof shall be sent to the Vice-President for check. The account shall be open to inspection at all times by the President, Vice-President, Amildar of Shimoga Taluk or such other officer or Councillor of the Municipality as the President may specially authorise on this behalf.

(12) The right shall not be transferred by sale, gift or otherwise or sub-rented without the previous sanction of the President, who reserves to himself the right to reject any application therefor without assigning reasons.

(13) The names of persons appointed by the contractor in connection with the levy of toll at the several gates shall be previously reported to the Vice-President.

(14) The contractor shall be held responsible for the due fulfilment of the terms of the contract; and in the event of any infringement of any of the conditions thereof, it shall be competent to the President to impose upon the contractor a fine not exceeding Rs. 50 for every such act of infringement. The fines so imposed shall be at once paid up by the contractor, and in case of default, it shall be competent to the President to suspend further collection of toll by the contractor and to dispose of the right to collect toll during the remaining period of the year by sale or otherwise as he may determine; such resale or other disposal being at the risk of the defaulting contractor in the manner explained in condition (1) *supra*.

(15) The imposition of a fine or the cancellation of the contract under the preceding para, shall be no bar to the prosecution of the contractor or his employees for any offence, or to the institution of other legal steps against them under any law in force for the time being.

GOVERNMENT STATIONERY DEPOT, BANGALORE.

ECONOMY IN THE USE OF PAPER.

Dated 24th October 1916.

The attention of Heads of Departments, and of all officers and officials using Government paper, is drawn to a notice issued by His Majesty's Secretary of State for India, to the effect that most of the available supply of bleaching powder in the United Kingdom is being requisitioned for military purposes and that the supplies of this article to the paper mills in this country will, therefore, be severely restricted.

As this is likely to result in a great shortage in the manufacture of white paper in this country, it is requested that the use of white paper be reduced to the utmost.

The Superintendent of Stationery requests that old book covers and file boards should be sent to the Press, instead of being destroyed, so that, wherever possible, they may be rejuvenated.

Superintendent, Government Stationery Depôt.

F. FERNANDES,

Superintendent, Epidemic Diseases Hospital and Government Leper Asylum.

GOVERNMENT STATIONERY DEPOT, BANGALORE.

ECONOMY IN THE USE OF PAPER.

Dated 24th October 1916.

The attention of Heads of Departments, and of all officers and officials using Government paper, is drawn to a notice issued by His Majesty's Secretary of State for India, to the

effect that most of the available supply of bleaching powder in the United Kingdom is being requisitioned for military purposes and that the supplies of this article to the paper mills in this country will, therefore, be severely restricted.

As this is likely to result in a great shortage in the manufacture of white paper in this country, it is requested that the use of white paper be reduced to the utmost.

The Superintendent of Stationery requests that old book covers and file boards should be sent to the Press, instead of being destroyed, so that, wherever possible, they may be rejuvenated.

MYSORE GOVERNMENT STATIONERY DEPOT.

TENDERS FOR THE SUPPLY OF WRITING, PRINTING AND OTHER PAPERS.

Notice dated 6th November 1916.

Sealed tenders for the supply of writing, printing and other papers, required for the Government of Mysore, during the official year 1917-18 (commencing from 1st July 1917), will be received by the Superintendent of Stationery, Mysore Government, at his office at Bangalore, up to 1 P.M., on Monday 8th January 1917.

2. Tenders should be superscribed "Tender for the supply of writing, printing and other papers," and should be accompanied by samples and a receipt for a sum of Rs. 500, as earnest money deposited in any of the Mysore State Treasuries, or in the Bank of Mysore, Bangalore, or the Bank of Madras, Madras or Bangalore, or Messrs. Coutts & Co., London. No cash or currency notes will be accepted as earnest money. Earnest money will be returned to unsuccessful tenderers.

3. Samples of the required papers used by the Government of Mysore can be seen at the Mysore Government Stationery Depot, Bangalore, any day, except Sundays and holidays, between the hours of 11 A.M. and 4 P.M., or samples of the standard papers may be had on application to the Superintendent of Stationery, Mysore Government, Bangalore.

4. The successful tenderers will be required to execute a security bond in the prescribed form on 8 annas Mysore Government Stamp paper and to deposit a security of five per cent on the value of papers for which the tender is accepted for the due fulfilment of the contract. This security may be in Government of India Pro-notes endorsed to the Dewan of Mysore, or in Mysore Government Savings Bank deposits made under para 9 of the Savings Bank Rules.

5. The schedule annexed hereunder shows probable requirements; and the quantities shown are only approximate. *Should additional supplies be required during the year, beyond the quantities stated in the tender form, contractors must be prepared to furnish such additional supplies at their tendered rates.* The contractors will be bound to make good to Government any loss which may arise from their failure to supply in time and thus put Government to the necessity of purchasing the articles specified in the contracts in the local Market at higher rates than those contracted for.

6. The contractors must make deliveries of papers, within three months from the date of orders from the Superintendent of Stationery, in quantities as may be required by him from time to time. It shall be in the discretion of the Superintendent to extend the time for such delivery, on reasonable cause being shown. All supplies will be subject to strict examination by the Superintendent of Stationery. Papers not up to quality and sample will be rejected and will remain at the risk of the contractors. *All papers must be entirely free from mechanical wood.*

7. Payments for papers supplied will be made on bills to be furnished in duplicate after acceptance by the Superintendent of Stationery, such payments, falling due on or after 1st July 1917.

8. Tenders must be submitted on forms which can be had on application to the Superintendent of Stationery.

9. Tenders must specify the rate at which the tenderers agree to supply. These rates must include baling, shipping, carriage, and all other charges up to delivery at the City Railway Station, Bangalore.

10. Tenders will be opened by the Superintendent at his office at 3 P.M., on Monday 8th January 1917, in the presence of such tenderers as may choose to attend.

11. All papers with the exception of items Nos. 8, 23, 24 and 25 of the schedule should be water-marked "Government of Mysore." The purchase of overmakes of water-marked paper cannot be guaranteed, and they should in no case exceed *ten per cent of the ordered quantity*, but the contractors must bind themselves not to sell at any time such water-marked papers to the outside public.

12. The Superintendent reserves the right of rejecting any tender in whole or in part without assigning any reason therefor.

GOVERNMENT STATIONERY DEPOT, BANGALORE.

ECONOMY IN THE USE OF PAPER.

Dated 24th October 1916.

The attention of Heads of Departments, and of all officers and officials using Government paper, is drawn to a notice issued by His Majesty's Secretary of State for India, to the effect that most of the available supply of bleaching powder in the United Kingdom is being requisitioned for military purposes and that the supplies of this article to the paper mills in this country will, therefore, be severely restricted.

As this is likely to result in a great shortage in the manufacture of white paper in this country, it is requested that the use of white paper be reduced to the utmost.

The Superintendent of Stationery requests that old book covers and file boards should be sent to the Press, instead of being destroyed, so that, wherever possible, they may be rejuvenated.

MYSORE GOVERNMENT STATIONERY DEPOT.

THE EPIDEMIC DISEASES HOSPITAL, THE WARDS FOR INCURABLE PATIENTS AND THE GOVERNMENT LEPER ASYLUM, BANGALORE CITY.

Abstract Notification dated 3rd November 1916.

The attention of the public is invited to pages 811 and 812 of Part IV of the *Mysore Gazette* Notification calling for tenders for the supply, by contract, of articles of diet required for the use of the Epidemic Diseases Hospital, the Wards for incurable patients and the Government Leper Asylum, Bangalore City, for the year 1917.

GOVERNMENT STATIONERY DEPOT, BANGALORE.

ECONOMY IN THE USE OF PAPER.

Dated 24th October 1916.

The attention of Heads of Departments, and of all officers and officials using Government paper, is drawn to a notice issued by His Majesty's Secretary of State for India, to the effect that most of the available supply of bleaching powder in the United Kingdom is being requisitioned for military purposes and that the supplies of this article to the paper mills in this country will, therefore, be severely restricted.

As this is likely to result in a great shortage in the manufacture of white paper in this country, it is requested that the use of white paper be reduced to the utmost.

The Superintendent of Stationery requests that old book covers and file boards should be sent to the Press, instead of being destroyed, so that, wherever possible, they may be rejuvenated.

Stem pink and stout, leaves are broader and longer, the cobs cylindrical and 10 inches long, seeds big, white, with smooth surface and compactly set. Soya Beans for Sale.

This is a leguminous plant introduced here from different parts of the world. There are many varieties of it, their period of maturity ranging from 3 to 5 months. It is a very hardy plant, resists drought and water logging and grows in any soil. The yield is far higher than all the local pulses. The plant grows to a height of 1 to 3 feet. This is a highly nutritious pulse and is therefore cultivated on a very large scale in other countries. It is used as a vegetable, pulse, oil seed, green manure crop and fodder for cattle. The oil is edible, used for cooking and also for various industries. Its cake is a valuable manure. Many products are made from it such as artificial milk, biscuits, soaps, lubricating oil, etc.

The following varieties are available now at the Farm for distribution at 8 annas per lb.

Soya Beans for Sale.

This is a leguminous plant introduced here from different parts of the world. There are many varieties of it, their period of maturity ranging from 3 to 5 months. It is a very hardy plant, resists drought and water logging and grows in any soil. The yield is far higher than all the local pulses. The plant grows to a height of 1 to 3 feet. This is a highly nutritious pulse and is therefore cultivated on a very large scale in other countries. It is used as a vegetable, pulse, oil seed, green manure crop and fodder for cattle. The oil is edible, used for cooking and also for various industries. Its cake is a valuable manure. Many products are made from it such as artificial milk, biscuits, soaps, lubricating oil, etc.

TENDERS FOR THE SUPPLY OF SUNDRY STATIONERY REQUISITES.

Notice dated 21st November 1916.

Sealed tenders for the supply of sundry stationery articles required for the Government of Mysore, during the official year 1917-18 (commencing from 1st July 1917), will be received by the Superintendent of Stationery, Mysore Government, at his Office at Bangalore, up to 1 P.M., on Monday 29th January 1917.

2. Tenders should be superscribed "Tender for the supply of sundry stationery articles," and should be accompanied by samples and a receipt for a sum of Rs. 250, as earnest money deposited in any of the Mysore State Treasuries, or in the Bank of Mysore, Bangalore, or the Bank of Madras, Madras or Bangalore, or Messrs. Coutts & Co., London. No cash or currency notes will be accepted as earnest money. Earnest money will be returned to unsuccessful tenderers.

3. Samples of the required articles of stationery used by the Government of Mysore can be seen at the Mysore Government Stationery Depot, Bangalore, any day, except Sundays and holidays, between the hours of 11 A.M. and 4 P.M.

4. The successful tenderers will be required to execute a security bond in the prescribed form on 8 annas Mysore Government Stamp paper and to deposit a security of five per cent on the value of the articles for which the tender is accepted for the due fulfilment of the contract. This security may be in Government of India Pro-notes endorsed to the Dewan of Mysore, or in Mysore Government Savings Bank deposits made under para 9 of the Savings Bank Rules.

5. The schedule annexed hereunder shows probable requirements; and the quantities shown are only approximate. *Should additional supplies be required during the year, beyond the quantities stated in the tender form, contractors must be prepared to furnish such additional supplies at their tendered rates.* The contractors will be bound to make good to Government any loss which may arise from their failure to supply in time and thus put Government to the necessity of purchasing the articles specified in the contracts in the local Market at higher rates than those contracted for.

6. The contractors must make deliveries of articles within three months from the date of orders from the Superintendent of Stationery, in quantities as may be required by him from time to time. It shall be in the discretion of the Superintendent to extend the time for such delivery, on reasonable cause being shown. All supplies will be subject to strict examination by the Superintendent of Stationery. Articles not up to quality and sample will be rejected and will remain at the risk of the contractors.

7. Payments for articles supplied will be made on bills to be furnished in duplicate after acceptance by the Superintendent of Stationery, such payments, falling due on or after 1st July 1917.

8. Tenders must be submitted on forms which can be had on application to the Superintendent of Stationery.

9. Tenders must specify the rate at which the tenderers agree to supply. These rates must include packing, shipping, carriage, and all other charges up to delivery at the Office of the Stationery Depot, Bangalore.

10. Tenders will be opened by the Superintendent at his Office at 3 P.M., on Monday 29th January 1917, in the presence of such tenderers as may choose to attend.

11. With the exception of the envelopes which have been required to be impressed with the words "Government of Mysore" such of the other articles (such as pencils, candles, wax, etc.) of the schedule as could conveniently be impressed with the letters "M. G." should be marked in a suitable place.

12. The Superintendent reserves the right of rejecting any tender in whole or in part without assigning any reason therefor.
